

NOTE

*Eucoloneura*, A New Name to Replace the Generic Homonym *Coloneura* Davis  
(Lepidoptera: Psychidae)

Because *Coloneura* Davis (1964, United States National Museum Bulletin 211: 89; type species, *Coloneura fragilis* (Barnes and McDunnough) is preoccupied by *Coloneura* Foerster (1862, Decheniana (Naturhistorischer Verein der Rheinlande)—Biologische Abteilung 19: 276), I am proposing the **new name** *Eucoloneura* to replace the junior homonym *Coloneura* Davis.

*Coloneura* Foerster was proposed for a genus of Braconidae (Hymenoptera). *Eucoloneura* is to be considered feminine in gender.

Donald R. Davis, *Department of Systematic Biology, Smithsonian Institution, Washington, DC 20560-0127, U.S.A. (e-mail: davis.don@nmnh.si.edu)*
